

Delivery hose Professional 20m,30m 64mm, 65mm

Premium inside and outside-rubberised delivery hose in a class of its own.

Features

- Fabric ply: High-strength polyester/polyamide yarn, endlesswoven and completely embedded in the rubber.
- Inside and outside rubberisation: Top-grade nitrile rubber, pressed through the fabric ply during extrusion, ribbed on the outside so as to give excellent abrasion-resistance and protection against contact heat
- Characteristics: Very sturdy and durable hose; resistant to oil, petrol (gasoline) and chemicals, heat and weather proof, no cleaning and drying needed.
