

SAFE GRIP 3 yellow with cuff

these properties make the SAFE GRIP 3 the perfect partner for every operation. Certified according to EN 659, it meets the highest requirements placed on fire brigade gloves and is the ideal companion for fire fighting. In addition to very high cut resistance and the best mechanical properties, it also offers an excellent tactile feel and ergonomics.

Features

- Backhand and cuff made of fireproof NOMEX® III
- KEVLAR® fleece as heat and cut protection
- Palm made from a NOMEX® / KEVLAR® fabric with a non-slip silicone carbon coating
- Waterproof and breathable GORE-TEX® X-TRAFIT membrane
